About Me

Hi, I'm Divyanshu Negi. I'm good at web development and enjoy creating websites that look nice and work well. I like learning new things and improving my skills every day.

Skills

- HTML
- CSS
- Javascript
- MySQL

Portfolio

- <https://divyanshu3030.github.io/portfolio/>

Project

Music website

- Built a responsive music website using HTML, CSS, JavaScript, PHP, and MySQL. Features include user login/signup with form validation, a custom audio player (play/pause, next, previous, shuffle, download), and search. Works smoothly on both desktop and mobile.
- <https://musicstep.infinityfreeapp.com>

Tic Tac Toe

- I created a simple Tic Tac Toe game using HTML, CSS, and JavaScript. It allows two players to play, shows the winner or a draw, and includes a reset button to start a new game. The layout is responsive and works on both mobile and desktop screens.
